LESLIE
WILSON
SUPER USER

TECHSTREET
ENTERPRISE

MEET LESLIE WILSON...

Take a peek into the life of super user Leslie Wilson and how she leverages Techstreet Enterprise

...one of the many Administrators Techstreet is proud to work with.

Leslie has been in document management in the automotive and medical field for over 20 years. Of those 20 years, she has been working with Techstreet for two and a half years.

Keep reading to find out what Leslie has to say about her experience with Techstreet Enterprise!

Techstreet: Why do you choose to work with Techstreet?

Leslie: The ease of the system for end users, along with ordering is very simple and being able to customize alerts is very useful as an admin of the system.

Techstreet: What's your favorite part about working with us?

Leslie: My representative, he is great

"My representative... is great with responding and very personable"

"I like being able to set an automatic email to myself for the amount of downloads that are being done..."

with responding and very personable. Always keeps me up to date on items with ordering and looking at our account on how to best serve our company.

Techstreet: How has Techstreet Enterprise improved workflow for engineers?

Leslie: All users from Engineers, Regulatory, Quality are able to utilize the search function in pulling standards

when they need them, not delay in time as long as we have the standard in our subscription, and if not, it is easily obtained in 1-3 days with great response from our representative.

Techstreet: What's your best #SuperUser tip for other Techstreet Enterprise users out there?

Leslie: I like being able to set an automatic email to myself for the amount of downloads that are being done and look to see whom/department is having an abundance of those to determine future ordering as well as standards being reviewed.

"I like working smarter not hard and Techstreet does that for me."

3 THINGS LESLIE LOOKS FOR IN A STANDARDS PROVIDER

Find out about Leslie's three key things he values in a standards provider and what Techstreet brings to the table.

UPDATE NOTIFICATIONS

"This helps in being in a medical industry and perform our impact assessment requirements."

EASY TO USE

"Our end users are able to quickly search for what they need. If it's not in our current membership, they can easily pull a screen shot to send to me so that I can order or utilize the Building Blocks (*love those*)."

TIME EFFICIENT

"In past experiences I was overwhelmed as an admin of a paper system of standards. To constantly update, track and disburse was very time consuming. I like working smarter not hard and Techstreet does that for me."

ADMINISTRATION

The screenshot shows a sidebar menu with 'Overview', 'Building Blocks', 'User Administration', and 'Manage Users'. The main content area is titled 'User Administration - Heavy Download Alert'. It contains the following text:

The Heavy Download Alert feature enables you to monitor which users are downloading more documents than the selected threshold. When enabled, any user that downloads the set threshold of documents or more within a 24 hour period will appear in the Heavy Download report for that day. Heavy Download users will also be included in a daily email to all Administrators.

The download alert feature will not be applicable to Anonymous Users.

RAPIDFIRE QUESTIONS WITH LESLIE

Q: Dogs or cats?

A: Both.

Q: Hot coffee or iced?

A: Hot with loads of creamer.

Q: Favorite color?

A: Pink is my favorite color in a house full of boys!

Q: If you were an ice cream flavor, what would you be?

A: Strawberry.

Q: If you could have one superpower, what would it be?

A: Heal people.

ALL ABOUT LESLIE

As mentioned earlier, Leslie has been in document management in the automotive and medical field for over 20 years.

She is happily married with two boys and a fur baby—their 100 pound German shepherd Lexi. She tells me she used to have cats as well but they've since passed.

Outside of work, you can find Leslie scrapbooking. She also enjoys photography and working as a wellness coach too!

LESLIE'S #1 VACATION DESTINATION

We asked Leslie what is one place she's never been to that she always wanted to go. Can you guess where just by looking at the postcards?

HINT: It's in the Pacific Ocean.

Answer: Bora Bora!
