

Techstreet Enterprise

Totally transparent standards management

Manage standards across your organization like never before

Take control of your budget. Gain insight into usage and spend. Leverage authoritative content. Empower users with innovative tools that evolve with your business needs. Techstreet Enterprise™ combines ease of use with total transparency to create a robust and effective web platform for managing global standards across your organization.

Unparalleled control and insight

Control spend, analyze costs and manage content more effectively. Techstreet Enterprise is a single solution for managing both subscription-based content and individually purchased standards, offering exclusive, industry-leading tools to help you intuitively understand and manage your organization's purchasing and usage.

Manage return on investment with enterprise access to a custom set of standards selected for your business.

- **Expand your content coverage** with single-copy purchasing.
- **Control access** with customizable settings, purchase rules and exception groups.
- **Analyze costs** with custom purchase reports for audits, compliance, accounting and more.
- **Measure usage and spend** with on-demand usage reports that provide total transparency into actual usage.

Flexible, easy-to-use interface

Save time and increase productivity with a clean, intuitive interface, flexible notification options, and powerful – yet easy-to-use – search capabilities.

- **Get critical updates** on revised standards with custom alerts.
- **Streamline R&D searching** with saved keyword searches, search alerts and downloadable results.
- **Share information** by easily sorting, filtering and exporting document updates.
- **Manage documents effortlessly** with document lists and notes that stay with documents through updates and revisions.
- **Ensure accuracy** by viewing equivalency data at a glance and quickly confirming documentation regardless of publisher or origin.
- **Get streamlined access** to your most-used documents, searches and pertinent subscription information through a customized home page.
- **Enjoy a better user experience** including contextual help and drag-and-drop functionality.
- **Refine results and find information more quickly** with suggested search and relevant search filters.

Relevant, customized content

Deliver the most relevant and up-to-date information to your organization – anytime, anywhere – with authoritative standards intelligence and custom content options.

- **Get exactly what you need** with flexible content packages from the world's leading standards organizations.
- **Access full-text technical standards for multiple industries** including energy, utilities, medical devices, manufacturing, construction and more.
- **Save time** with document previews for at-a-glance information.
- **Stay current** with historical and redline documents included at no additional cost.
